

## 2024 INKY Season

The outdoor season for our favorite sport is around the corner. We have many updates going into 2024 and want to give you a quick overview on what to expect as a competitor, promoter, and as a fan. This is the first of the quarterly newsletters from the INKY board in 2024.

---

## Website Update

Our team has been working to bring INKY into the 21st century and you can see it with your own two eyes! Our website now provides a quality user experience to all riders and race directors. We have a new section for race calendars, a planning calendar, rider resources, race director resources!

## INKY Presidents Note

Hi everyone and welcome to 2024! I'm excited to see that bicycle racing is not only alive and thriving in our region, but it will be a bigger year for racing in our region than in 2023!

Thank you to all the race directors who make this possible! I'm excited to see multiple events have applied to host state championship road and time trial events, adding competitive value in our regional events. I'm stoked to see a resurgence of events in Kentucky that started last year and will continue to grow in 2024. Additionally, multiple collegiate teams in the region will host domestic races along with their collegiate races, expanding the race opportunities for the INKY area.

Speaking of expanded opportunities, several race directors will hold multi-day events, allowing racers to fill up their weekend with exciting, fast, fun times on the bike.

To see all the area events, be sure to check out the updated INKY website! I hope to see y'all out at the races this year, feel free to say hi :-)
